

Don't you think that my husband and I are smart enough to decide for ourselves whether we want to tolerate unsolicited calls!? Well we have, with the NJdonotcall program. We hope that you'll make your decision based on ones individual rights and not by big money pressures. We pay for our phone service and bought our phones for our use, not for anyone else's use. If they want to use our phone for their business make them pay for it. Thank you Rosemarie LeBow and family
